LIMITED WARRANTY / MODELS 2016 AND NEWER

Crafted with care. Supported with confidence.

Argos Nautic rigid inflatable boats

Warranty coverage, conditions and service information

COVERAGE AT A GLANCE

Recreational-use warranty

Coverage begins on the original purchase date and is subject to the terms, exclusions and eligibility requirements in this document. F330 foam-collar coverage is specific to that model.

Fiberglass hull	Structural defects in materials and workmanship	3 years
Inflatable tube fabric	Porosity deterioration affecting serviceability; fabric-manufacturer coverage	5 years
F330 foam collar	Defects in materials and workmanship on the F330 only	5 years
Tube air-holding seams	Separation with qualifying pressure loss	2 years
Inflation valves	Defects excluding improper inflation and ordinary wear	2 years
Specified accessories	Defects in materials and workmanship; listed exceptions apply	1 year

SECTION 01

Warranty coverage & eligibility

This limited warranty is issued by Argos Nautic for qualifying Argos Nautic rigid inflatable boats (RIBs), models 2016 and newer. It applies to the original purchaser of a properly registered boat, with limited transfer rights described in Section 05. Unless expressly stated otherwise, the coverage described below is for normal private recreational use and begins on the original date of purchase. Coverage administered by Argos Nautic generally concerns Argos Nautic-manufactured components installed by the factory or factory-authorized personnel; separately warranted equipment is addressed under Section 02.

01.1 INFLATABLE TUBE FABRIC — FIVE YEARS

Chlorosulfonated polyethylene (CSM)-coated tube fabric is covered against porosity deterioration that affects the tube's serviceability. The fabric manufacturer, ORCA / Pennel & Flipo, provides the fabric coverage described here. Discoloration, punctures, fading, tears, rips, cracking, abrasion, accidents, negligence and ordinary wear are not covered.

01.2 INFLATION VALVES — TWO YEARS

Inflation valves are covered for two (2) years. Ordinary wear and tear, negligence and damage resulting from improper inflation techniques are excluded.

01.3 TUBE AIR-HOLDING SEAMS — TWO YEARS

Inflatable-tube air-holding seams are covered against seam separation and a resulting loss of air exceeding 20% of the recommended inflation pressure, measured over five days while the boat remains at a constant temperature in a controlled environment. Argos Nautic will repair and/or replace qualifying tubes at no charge during the first year. Correct inflation pressure must be maintained. Operation with underinflated tubes may damage the tubes.

01.4 FIBERGLASS HULL — THREE YEARS

The fiberglass hull is covered against structural defects in materials and workmanship for three (3) years. This coverage does not include surface finish, damage resulting from misuse, negligence or ordinary wear, or damage associated with operating the boat with an outboard motor exceeding the maximum horsepower authorized by Argos Nautic.

01.5 SPECIFIED ACCESSORIES — ONE YEAR

The following components are covered against defects in materials and workmanship for one (1) year: handles, seats, rings, mooring fittings, cushions, steering systems and cables, hydraulic hoses and fittings, fuel-system hoses, fittings and tanks, hardware, and electrical cables. Bilge pumps and water pumps, as well as painted or finished surfaces, are excluded from this accessory warranty.

01.6 F330 FOAM COLLAR — FIVE YEARS

For the Argos Nautic F330 only, the factory-installed foam collar is covered for five (5) years against defects in materials and workmanship under normal private recreational use. This coverage excludes ordinary wear and tear, fading, discoloration, abrasion, cuts, punctures, impact damage, improper use or handling, negligence, and damage caused by unauthorized alterations or improper repairs. All applicable exclusions, warranty conditions and remedies in this document apply.

SECTION 02

Exclusions & limitations

The limited warranty does not cover damage, defects or costs attributable to the following, to the extent permitted by applicable law:

Ordinary use & finish

Ordinary wear and tear; minor gelcoat grazing or blistering; cosmetic or finish deterioration; fading, abrasion, punctures, tears or other damage not attributable to a covered manufacturing defect.

Accident or improper use

Negligence, accident, collision, fire, theft, vandalism, riot, explosion, impact with objects, misuse, improper operation, improper trailering, unsuitable storage or improper maintenance.

Handling & environment

Damage arising from towing or lifting operations, improper inflation, or exposure to harsh or corrosive chemicals.

Modifications & third-party work

Defects or damage caused by improper modifications, aftermarket parts, or service or installation performed by a third party. Using an independent repair provider or third-party part does not, by itself, invalidate unrelated warranty coverage.

Activities and uses

Boats purchased for racing or other competitive events. Commercial, charter, rental and government use are subject to the separate provisions in Section 03 and any exclusions applicable to that use.

External costs

Freight, delivery, storage and similar charges.

Third-party products

Installed electronics and other equipment that carry their own manufacturer warranties are handled under those manufacturers' applicable warranty terms.

Operating instructions

Defects or damage resulting from use contrary to the Owner's Manual.

Important: An exclusion based on third-party repair or parts applies to damage caused by that repair or part; it is not an automatic cancellation of all warranty coverage.

SECTION 03

Commercial & government use

For a boat purchased for commercial and/or governmental use, the following reduced periods apply. Specific exclusions and operating conditions remain applicable.

CSM tube fabric	Porosity deterioration affecting serviceability	3 years
Tube seams	Qualifying seam separation and pressure loss	1 year
Fiberglass hull	Structural defects in materials and workmanship	2 years
Specified accessories	Defects in materials and workmanship	120 days

The commercial fabric warranty excludes discoloration, puncture, fading, tearing, ripping, cracking, abrasion, accident, negligence and ordinary wear. The commercial tube-seam test requires more than 20% pressure loss over five days at constant temperature. The commercial hull warranty excludes the surface finish, misuse, negligence, ordinary wear and operation above the approved outboard horsepower rating. The commercial accessory warranty excludes bilge pumps, water pumps and painted or finished surfaces.

SECTION 04

Warranty term & registration

The warranty commences on the original date of sale. The purchaser must complete the warranty registration card and ensure it is received by Argos Nautic within fifteen (15) days of the purchase date.

SECTION 05

Limited transferability

This warranty permits a transfer to a subsequent owner within one (1) year of the original sale, provided that the original warranty card is on file with Argos Nautic. Any transferred coverage is measured from the original purchase date; it does not restart the warranty period. The transferred warranty is prorated in time from the original purchase date.

SECTION 06

How to request warranty service

To request a review of a possible warranty claim, contact Argos Nautic using the information below. Include the tender model, hull identification number (HIN) if available, purchase date, a description of the concern, and supporting photographs or documents where possible. Contacting Argos Nautic first allows the appropriate inspection and next steps to be coordinated; no particular repair authorization or response deadline is promised by this paragraph.

ARGOS NAUTIC	1572 NW 165th Street, Miami Gardens, FL 33169, USA
Telephone	+1 (786) 520-4700

SECTION 07

Remedies and legal rights

Subject to the terms and exclusions of this limited warranty, Argos Nautic’s remedy for an eligible manufacturing defect is repair and/or replacement of the affected covered part or component. If an exact replacement part or boat is unavailable, Argos Nautic may provide a substitute of equivalent or better quality, subject to these warranty terms. Any allocation of diagnostic, removal, installation, shipping or related costs not expressly described in this warranty should be confirmed in writing before work begins.

Nothing in this limited warranty excludes any implied warranty or statutory right that cannot be disclaimed under applicable law. To the extent permitted by law, Argos Nautic excludes liability for incidental, consequential or contingent damages. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

SECTION 06
